TABLE OF CONTENTS

NUMBER 1, AUGUST 1975

Paul, M & Epel, D, Formation of fertilization acid by sea urchin eggs does not require specific cations 1

Kaminskas, E, Cell-serum factor interaction. Characteristics of stimulation of protein synthesis in Ehrlich ascites cells by factors in serum and in cell extracts 7

Kohn, A, Differential effects of isoleucine deprivation on cell motility, membrane transport and DNA synthesis in NIL 8 hamster cells 15

Namba, Y & Waksman, B H, Analysis of T-cell-specific functions in continuous lymphocytic cell lines. I. Combined expression of thymocyte antigen and MIF production in rat-mouse hybrid lines 23

Eckert, W A, Franke, W W & Scheer, U, Nucleocytoplasmic translocation of RNA in *Tetrahymena pyriformis* and its inhibition by actinomycin D and cycloheximide 31

Shay, J W, Gershenbaum, M R & Porter, K R, Enucleation of CHO cells by means of cytochalasin B and centrifugation: The topography of enucleation 47

Standaert, M M, Gray, S L & Melnykovych, G, Growth characteristics of two HeLa S3 strains possessing low level glucocorticoid-inducible and high level suppressible alkaline phosphatase 56

Tsutsui, Y, Suzuki, I & Hayashi, H, Immunofluorescent study of histone fractions F1 and F2a-1 in cultured cells 63

Michalopoulos, G & Pitot, H C, Primary culture of parenchymal liver cells on collagen membranes. Morphological and biochemical observations 70

Biberfeld, P & Johansson, A, Contact areas of cytotoxic lymphocytes and target cells. An electron microscopic study 79

Prasad, K N, Bondy, S C & Purdy, J L, Polyadenylic acid-containing cytoplasmic RNA increases in adenosine 3′,5′-cyclic monophosphate-induced "differentiated" neuroblastoma cells in culture 88

Kolb-Bachofen, V & Vogell, W, Mitochondrial proliferation in synchronized cells of *Tetrahymena pyriformis*. A morphometric study by electron microscopy on the biogenesis of mitochondria during the cell cycle 95

Berg, T, Melbye, B, Johnsen, S R & Prydz, H, Activity of lysosomal enzymes in the various cell cycle phases of synchronized HeLa cells 106

Baugh, L C & Thompson, G A, Studies of membrane formation in *Tetrahymena pyriformis*. IX. Variations in intracellular phospholipid and protein deployment during the cell division cycle 111

Deter, R L, Analog modeling of glucagon-induced autophagy in rat liver. I. Conceptual and mathematical model of telolysosome-autophagosome-autolysosome interaction 122

Deter, R L, Analog modeling of glucagon-induced autophagy in rat liver. II. Evaluation of iron labeling as a means for identifying telolysosome, autophagosome and autolysosome populations 127

Roos, E & Temmink, J H M, Cytochemical comparison between wheat germ agglutinin and concanavalin A bound to mouse fibroblasts in vitro 140

Paranjpe, M S & Boone, C W, Intermittent sphering of virus-transformed and other neoplastic cells observed by time lapse cinematography 147

Nelsen, E M, Regulation of tubulin during ciliary regeneration in non-growing *Tetrahymena* 152

Garrido, J, Ultrastructural labeling of cell surface lectin receptors during the cell cycle 159

Anderson, K M, Chance, H & Kadohama, N, Separation of transcriptionally active from less active rat ventral prostate chromatin 176

DiPasquale, A, Locomotory activity of epithelial cells in culture 191

Løvtrup-Rein, H & Løvtrup, S, Changes in the content of cyclic AMP and cyclic GMP during the development of *Xenopus laevis* 216

NUMBER 2, SEPTEMBER 1975

Melsom, H, Sanner, T & Seljelid, R, Macrophage cytolytic factor. Some observations on its physicochemical properties and site of action 221

Schroeder, J, Upson, R & Chvapil, M, LDH isoenzyme pattern, lactate/pyruvate, and ultrastructure of fibrogenic and epithelial cell lines exposed to 3% oxygen 227

DiBerardino, M A & Hoffner, N J, Nucleo-cytoplasmic exchange of non-histone proteins in amphibian embryos 235

Martinozzi, M & Moscona, A A, Binding of ^{125}I-concanavalin A and agglutination of embryonic neural retina cells. Age-dependent and experimental changes 253

James, T W, Hemond, P, Czer, G & Bohman, R, Parametric analysis of volume distributions of *Schizosaccharomyces pombe* and other cells 267

Lapan, E A, Magnesium inositol hexaphosphate deposits in mesozoan dispersal larvae 277

Courgeon, A-M, Action of insect hormones at the cellular level. II. Differing sensitivity to β-ecdysone of several lines and clones of *Drosophila melanogaster* cells 283

Woodin, A M, Poole, A R & Dunn, G A, The effect of triisopropyl phosphate on the mobility of surface concanavalin A receptors and on the locomotion of polymorphonuclear leukocytes 292

Dewey, W C & Stone, L E, Sister chromatid ex-

changes and lack of isolabelling in Chinese hamster chromosomes 299
Pitha, J, Stork, E & Wimmer, E, Protein synthesis during aging of human cells in culture. Direction by polio virus 310
Fenster, E D, Lacour, F & Harel, J, Nuclear penetration and stimulation of nucleic acids synthesis by poly(A)-poly(U) in mammalian cells 315
Mergenhagen, D & Schweiger, H G, The effect of different inhibitors of transcription and translation on the expression and control of circadian rhythm in individual cells of *Acetabularia* 321
Sekiguchi, T, Sekiguchi, F, Tachibana, T, Yamada, T & Yoshida, M, Gene expression of foreign metaphase chromosomes introduced into cultured mammalian cells? 327
Hershey, H V & Taylor, J H, DNA replication in isolated nuclei. The fate of pulse-labelled DNA subunits 339
Quastel, M R & Kaplan, J G, Ouabain binding to intact lymphocytes: Enhancement by phytohemagglutinin and leucoagglutinin 351
Henning, R & Plattner, H, Formation of Triton WR 1339-filled rat liver lysosomes. I. Properties and intracellular distribution of [^{3}H]-Triton WR 1339 363
Plattner, H, Henning, R & Brauser, B, Formation of Triton WR 1339-filled rat liver lysosomes. II. Involvement of autophagy and of pre-existing lysosomes 377
De Petrocellis, B & Vittorelli, M L, Role of cell interactions in development and differentiation of the sea urchin *Paracentrotus lividus*. Changes in the activity of some enzymes of DNA biosynthesis after cell dissociation 392
Schmid, V, Cell transformation in isolated striated muscle of hydromedusae independent of DNA synthesis 401
Harris, P, The role of membranes in the organization of the mitotic apparatus 409

PRELIMINARY NOTES

Gonatas, N K, Steiber, A, Kim, S U, Graham, D I & Avrameas, S, Internalization of neuronal plasma membrane ricin receptors into the Golgi apparatus 426
Furuno, I & Matsudaira, H, Induction of DNA synthesis by dichloroisoproterenol without initial rise of the cAMP level in the parotid gland of the mouse 431
Nilsson, O, Ultrastructure of the trophoblast-epithelial junction at blastocyst implantation in the mouse 434
Lemos, E M & Lodi, W R, Effect of concanavalin A on sporulation of *Blastocladiella emersonii* 437
Coleman, M S & Hutton, J J, Terminal deoxynucleotidyl transferase and adenosine deaminase in human lymphoblastoid cell lines 440
Kuroda, Y, Protective effect of vitamin E on reduction in colony formation of cultured human cells by bisulfite 442
Schwartz, A G, Correlation between species life span and capacity to activate 7,12-dimethylbenz(a)anthracene to a form mutagenic to a mammalian cell 445
Geithe, H P, Asashima, M, Born, J, Tiedemann, H & Tiedemann, H, Isolation of a homogeneous morphogenetic factor, inducing mesoderm and endoderm derived tissues in *Triturus* ectoderm 447
Jones, A R, Wiklund, R A & Nunn, J F, The effects of the inhalational anaesthetic halothane on the extension of contractile ciliates 450
Galloway, S M & Evans, H J, Asymmetrical C-bands and satellite DNA in man 454
Connolly, D T & Oppenheimer, S B, Cell density-dependent stimulation of glutamine synthetase activity in cultured mouse teratoma cells 459
Stubblefield, E, Cram, S & Deaven, L L, Flow microfluorometric analysis of isolated Chinese hamster chromosomes 464
Ege, T & Ringertz, N R, Viability of cells reconstituted by virus-induced fusion of minicells with anucleate cells 469
